# SPACE CLEARING PROFESSIONAL CERTIFICATE PROGRAM

---

Spring 2016

Thank you for your interest in the Space Clearing Certification Program offered by the Conscious Design Institute and Renae Jensen, FSII.

Space Clearing/Harmonizing is a vital part of maintaining healthy space, and has been part of our human culture and practice for thousands of years. Home Blessings, Spring Cleaning, New Years ceremonies, Spirit Cleansing.. we are familiar rituals associated with cleansing space. As we work to maintain a healthy body, mind and spirit, we must allow our homes to have a cleanse, refresh and reset it's energy and intentions. We can apply new paint, beautiful furnishings and feng shui techniques, but it is like " putting clean clothes on a dirty body". Our homes matrix, energy fields, history, trauma, and more are a level of congestion that can shifted.

I grew up with these techniques with a Greek/Italian background and have been blessed to have studied and trained for many years in the field. My professional field of Conscious Design and Real Estate has brought me hundreds of clients - with issues ranging from illness, negative luck, houses that refuse to sell, romance problems, children out of sorts.. Space Clearing has been a vital part of the process, and I have seen the value of it.

That is why the Conscious Design Institute has created it's first certification program in Space Clearing. Classes will be taught by myself, Sandy Humby, and we have asked Sam Tso Navajo Medicine Man to share knowledge in sage, sweetgrass, ash at a fire circle. Guest instructors are invited in occassionally to offer depth to the program. We will offer lots of practice, on-site, personal, remote and map clearing. For more information just contact me.

Blessings,

Renae Jensen, FSII
